Ch. 4: Whitefoot Grows Anxious

Whitefoot the Wood Mouse

Directions: How do you suppose it would feel if one by one the trees around your home or neighborhood began to disappear? What if the stairs were gone? The phone poles and electrical wires just went away while you were at school? Do you think this is how Whitefoot felt? Explain how you would feel the same and differently about things disappearing in your neighborhood. Compare your feelings and experience with Whitefoot's. Discuss what Whitefoot did and what you and your family would do.
