Ch. 15 "The Magic Art of the Great Humbug"
The Wonderful Wizard of Oz

Directions: Often we are told that we can do anything with the right attitude. If we believe what we have or want can be true, we can make it happen. Explain how the Scarecrow, Tin Man, and the Lion felt when they received the brain, heart, and courage for which they longed. Did these characters have these things before the Wizard told them they would have what they wanted? Did these characters have these things after the Wizard gave them what they wished for?
