

## Parent Refusal to Allow Student Internet Access

As the parent or guardian of a student in the Manatee County School District, I have read the guidelines of the Manatee County Network Information Services Guidelines (Attachment 3). I understand that this access is designed for educational purposes.

I understand that unless I return this form specifically denying that permission, my child will use the Internet and email at school following the guidelines in the Manatee County Network Information Services Guidelines.

**I am returning this form to deny my child's use of the Internet and email under the above conditions.**
