

Chapter XVI: "One Road to Palm Beach" from *Florida Trails*

The author proposes that, "To those who would see the real Florida I recommend this lone Palm Beach trail, not taken in the whirl of an automobile rush to safety under the wing of one of the big hotels, but slowly and with open eyes and ears that the beauty and significance of the place may enter in."

If you knew someone who wanted to see "the real Florida" of today, what would you recommend that they do?
