**Ch. 10: "Why the World Seemed Upside Down
to Jerry Muskrat"**
The Adventures of Jerry Muskrat

Directions: Wherever we live, the weather can change many things around us in very big ways. Describe something about the weather where you live. Think about the fun it makes, or the way it scares you. Think about how it changes your world. Is your world changed as much or more than Jerry's? Illustrate where you live. Then draw a picture of how the weather changes where you live.
