

## Math Grade 1

Ordering numbers

MA.1.A.1.4

MA.1.A.2.3

### "Age"

**Reading Level:** 1.4

#### **Activity:**

1. Fill in the blanks in the poem and answer the question in line 6.

Mary's five and Bea is three,  
Bob is nine, that's \_\_\_\_\_ times Bea.  
In four more years I'll be eleven,  
That's much better than being \_\_\_\_\_.  
Granddad's sixty I am told,  
How many years till I'm that old? \_\_\_\_\_  
Funny how mum's age never changes,  
She's been twenty-one for ages!

2. Put the names of the people in order from youngest to oldest. Be sure to include the speaker.
