## Ch. 9: "Squinty's Balloon Ride" Squinty, the Comical Pig

**Directions:** Make a miniature television from a sturdy box. Make a slit in each side of the box about 2 inches back from the open end the size of the paper. You might purchase a paper roll or paste several pieces together to run through the slits. After drawing the scenes from the story slip the paper strip through one slot, across the open end of the box, and through the other slot. Roll the picture on the right side of the box to pull the pictures across the "screen." Present this chapter of the story in the form of a news telecast.
