“My Kingdom”
A Child’s Garden of Verses

Directions: Blocks, snap-together toys, sand castles, twigs, stones, cards, magnets, computer software, and other building toys are fun for many children. Sometimes players are heroes, scary monsters, inventors, or others. In this poem, a child uses all sorts of materials close at hand to create an imaginary play world. Write or draw to tell about a time when you pretended a world you built just to please yourself.
