## The Story Of Tom Tit Tot

### Chain of Events for Comprehension

Chain of Events is used to describe the stages of an event, the actions of character or the steps in a procedure.

Key questions: What is the first step or initiating event? What are the next stages or steps? How does one event lead to one another? What is the final outcome?

Directions: Fill out the chain of events during reading.

What happened?

Who was involved?

Action/First event

Prediction:

What happened?

Who was involved?

Action/Second event

Prediction:

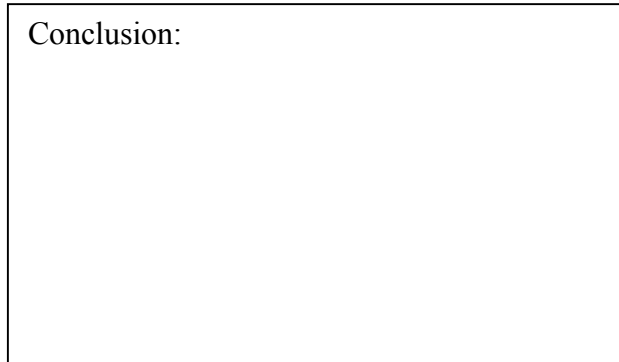

What happened?

Who was involved?

Action/Final Major Event

Prediction:

Conclusion:

In your own words, write to explain the moral or lesson of this tale. Use details and examples from the story:
