Changing the Size of the Dock in Mac OS X

The Dock includes shortcuts to applications and folders on your computer. To change the size of the Dock and make it easier to see:

1. Choose Apple, Dock, Dock Preferences.

Ű.	Finder	File	Edit	View	Go	Window	Help		
Ał So M	oout This oftware Up ac OS X So	Mac odate oftware	2						
System Preferences				T (U) U					
D	Dock 🕨			Turn Hiding On て第D					
Re	Recent Items Force Quit Finder			►	Turn Magnification Off				
Fo			N	৫%৩	Po √ Po	Position on Left ✓ Position on Bottom			
SI	eep	∵∺≜ Posit				sition on R	ition on Right		
Re	estart				Do	ock Prefere	nces		

2. Use the slider at the top of the window to change the Dock size (from Small to Large).

0	Dock	
Show All		٩
Size: Magnification: Position on screen: Minimize windows using:	Small I Small I Min : O O O Left Bottom Right : Genie effect O Minimize windows into app Minimize windows into app Animate opening application Automatically hide and sho	Plication icon ons ow the Dock

3. To use a magnification effect, check the box next to Magnification and use the slider to set the amount of magnification.

When this feature is enabled, the icons in the Dock will be magnified when you hover over them.

Another way to change the size of the Dock is by dragging up or down on the divider between the application and folder icons on the right side of the Dock.
